21 October 2004

Dear FCC:

I wanted to make clear how important I feel that K-Love is to me as a part of the Great Falls community. I have listened to K-Love for approximately 7 years. A friend from church told me about K-Love. I had not listened to a Christian channel prior to this, but once I turned into K-Love that was it for me.

I have gone through some rough places in my life (and still am) these past few years. I'm not sure I could have hung on without K-Love to remind me of God's goodness and grace. They help me remember that even when I feel all alone He is there beside me.

I have learned of countless Christian artists that I was pretty much unaware of before becoming a K-Love listener. This has generated CD sales, which help support my community. I am so enthusiastic of K-Love that I am a supporter although my funds are very limited. K-Love is one of those areas that I feel is important to support.

I could not tell you how many listeners there are in Great Falls, but I hope it's a lot. I know I would feel lost if K-Love were to be displaced by an LPFM broadcaster providing other programming. The people on K-Love have become very real to me. As an adoptive parent, I have enjoyed hearing all about the adventures of John and Sherri adopting little Lexie. All the people at K-Love seem caring and concerned. I'm quite certain that I am far from alone in my opinions both in Great Falls and throughout the USA.

K-Love provides so many services. They provide round the clock counselors to listen when you need them. They provide excellent music with a message. They even give listeners the opportunity to be on their music board.

K-Love is family friendly. Children may listen without parents having to worry about what those little ears may hear. K-Love provides many ways to witness. I cannot say enough good things about this station. I beg you to keep them on the air, not just in Great Falls, but throughout our nation.

Sincerely,

Fonda Henson Workman
